Business Skills Workshop for Shared Resource Facilities

Rate Setting and Compliance

Speaker Bio

For 16 years, Andy worked in a management capacity at scientific equipment designer and manufacturer – Optimize Technologies, Inc. After receiving his MBA 2011, Andy was recruited for the position of Director of University Shared Resources (USR) at the Oregon Health and Science University (OHSU). His primary responsibilities are to maintain an efficient core program operating model and cutting-edge shared research resource portfolio that benefits all scientists at OHSU. For five years, Andy served on the ABRF Executive Board, two of those years as the ABRF president. He continues to serve on multiple ABRF committees and participates in many of the society activities.
