Business Skills Workshop for Shared Resource Facilities

Core Evaluations Why and How

An integral part of establishing value for a core facility is convincing others of the core facility's impact on the research conducted at the institution. This session will help define the various stakeholders and the metrics they might need to make informed decisions.

Speaker Bio

Katherine Stemke Hale is the deputy executive director of the Center for Biomedical Research Support at the University of Texas at Austin. Prior to her position at UT Austin, Dr. Hale was director of institutional core facilities at MD Anderson Cancer Center.
