

# Graham Wiley

Director, OMRF Clinical  
Genomics Center

*Oklahoma Medical  
Research Foundation*

---

## Sequencing The World From The Southern Plains

A brief discussion of how the OMRF CGC has quietly grown from a small local provider to accepting projects from around the world.

---

## Speaker Bio

Dr. Wiley has been involved with DNA sequencing since 2001 when he joined Bruce Roe's lab at the University of Oklahoma. After earning his PhD he joined the Oklahoma Medical Research Foundation and over the past 15 years has built the Clinical Genomics Center from a simple shared instrument grant to a fully self-sustaining research core.
