### ***Powering Up Core Management: A Hands-On Workshop with Microsoft Power Tools***

Join us for an interactive full-day workshop designed specifically for Core directors seeking smarter, more efficient ways to manage operations, visualize data, and make data-driven decisions. Through a combination of short presentations and guided hands-on sessions, participants will explore how Microsoft Power Tools (Power BI, Power Automate, and Power Apps) can transform Core facility workflows. Bring your laptop!

---

### **Speaker Bio**

Michelle S. Itano, Ph.D. is a Research Associate Professor and Director of the Neuroscience Microscopy Core at UNC-CH. Her research focuses on advancing and disseminating imaging techniques, particularly related to cellular and neurobiology. She will share her experience receiving professional coaching and practicing coaching skills in her day-to-day roles.

**2<sup>nd</sup> annual SC3 Conference, Sept. 30 – Oct. 2, 2025 Pegasus Park in Dallas, TX**
