

An Institutional Perspective on Core Facilities

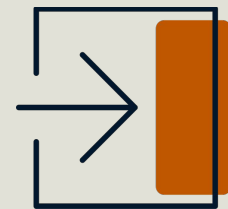

Julie Hayes

Assistant Vice President, Research Core Facilities

The University of Texas at Austin
Research Core Facilities
*Vice President for Research, Scholarship
and Creative Endeavors*

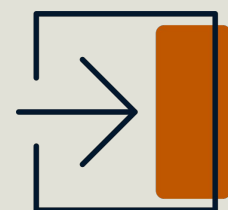

The Case for Institutional Investment in Core Facilities

Maximize Efficiency

Recruit and Retain Faculty

Supporting the scope of research –
from small advancements to big wins!

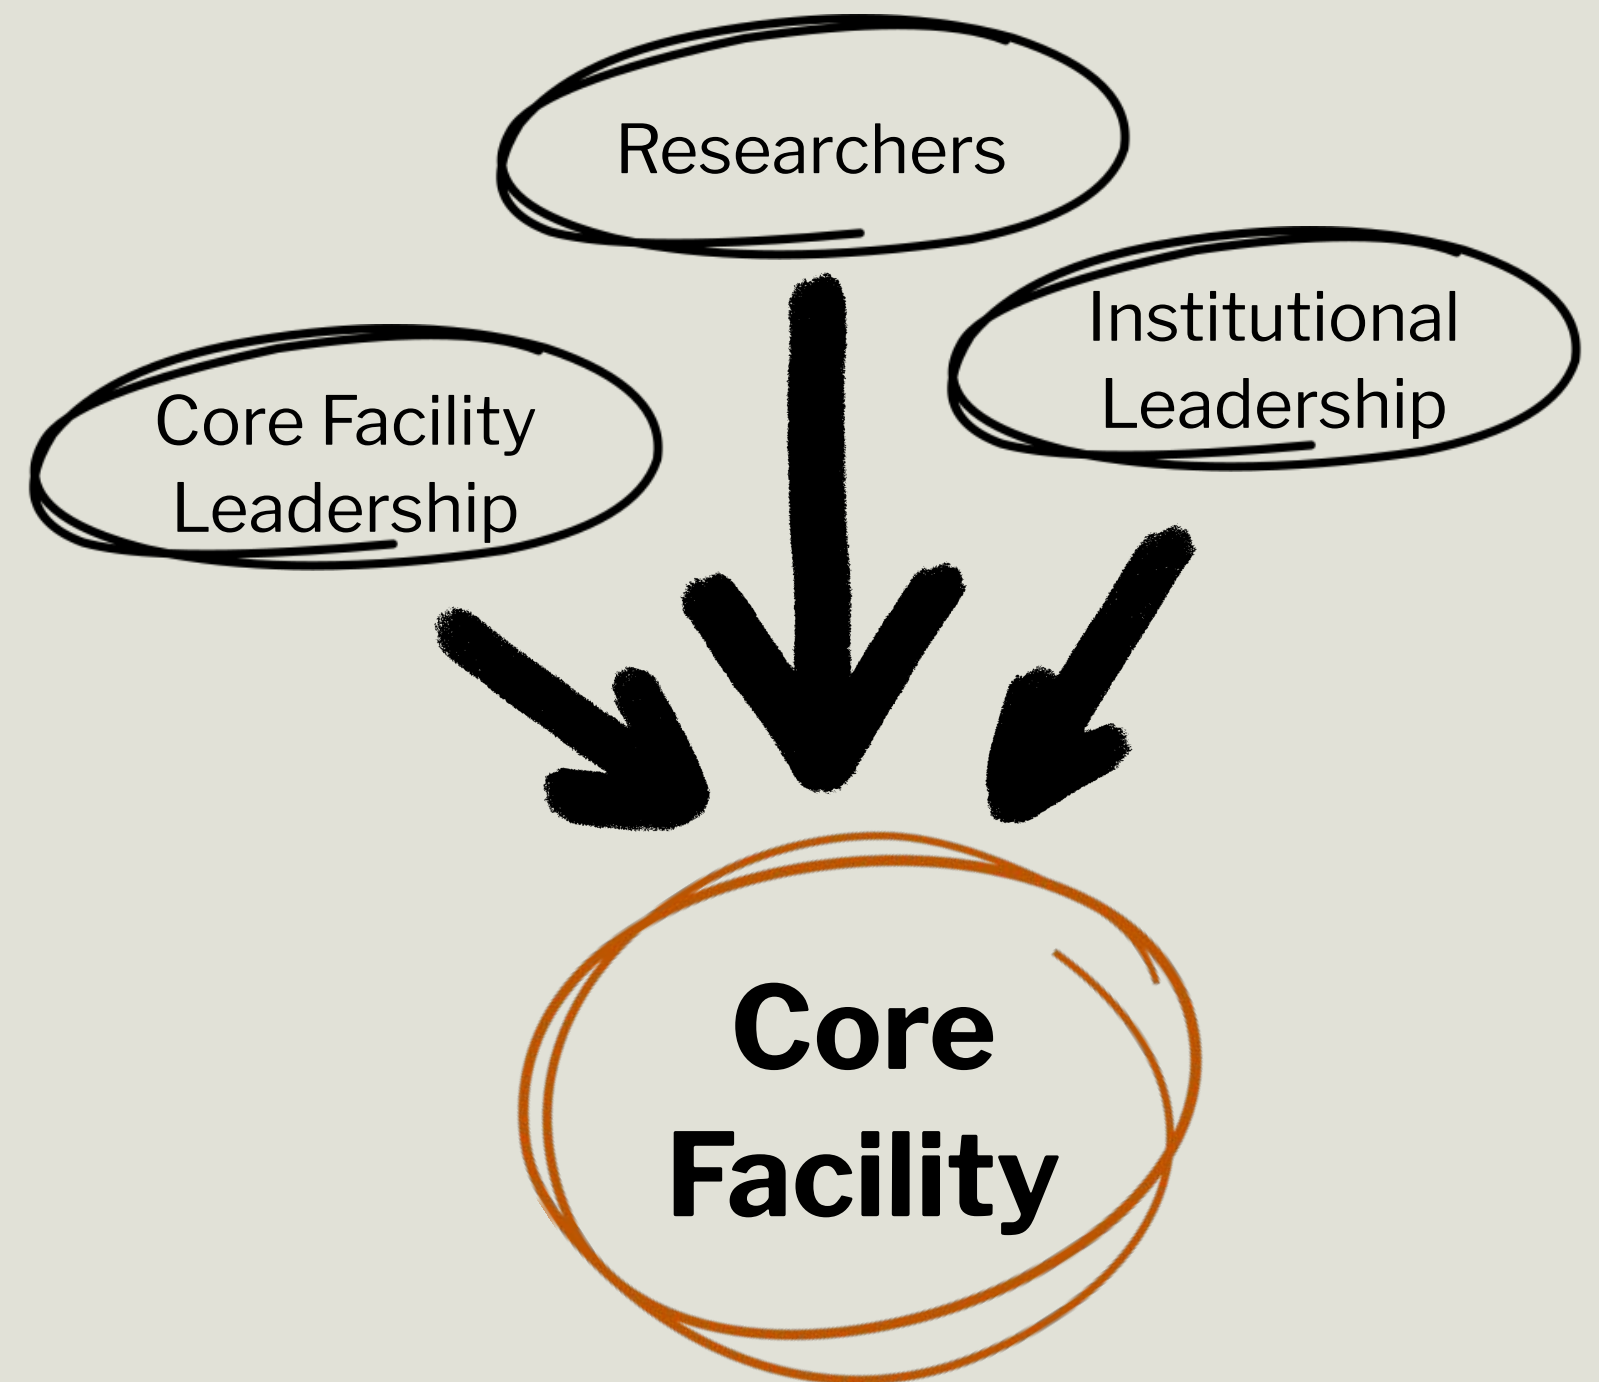

The Case for Core Facilities

**Shared
resources
maximize
efficiency for the
institution.**

- Limit redundant instruments
- Maximize space use
- Reduce staff turnover and enhance institutional knowledge with long-term positions
- Act as a recruitment and retention tools for faculty
- Offer opportunities for collaboration among researchers
- Build multi-disciplinary community
- Offer unique educational opportunities and access to marketable skills for our students, staff and faculty

Recruit and Retain Faculty

- Core Leadership:
 - Offer tours and consultations during faculty recruitment process
- Researchers:
 - Advocate for new shared resources in their recruitment and retention packages.
- Institutional Leadership:
 - Maximize the impact of recruitment funds by putting new resources in shared facilities.
 - Limit demand for new lab space by using core facilities

**Supporting the
scope of
research – *from
small
advancements
to big wins!***

Safest Bets

Walk-up cores
with basic lab equipment.

Riskiest Bets

Cutting-edge cores with
novel technology.

Thank you!
